

## **Kinnerley CE Primary Geography Curriculum**

## Knowledge and Skills Progression Year 1 to Year 6

Year	Term	Scheme of work	Locational knowledge	Place knowledge	Human and physical geography	Geographical skills and fieldwork
1		Where do I live?	<ul> <li>I know that the world is split into seven land masses called continents.</li> <li>I know that there are oceans between the continents.</li> <li>I know the difference between a continent and a country.</li> <li>I can name the four countries of the UK.</li> <li>I can name the four capital cities of the UK and match them to their country.</li> </ul>		<ul> <li>I can identify and describe some of the physical features of the UK, such as mountains, hills and lakes.</li> <li>I know what a settlements is.</li> <li>I can describe the basic differences between a village, town and city.</li> </ul>	<ul> <li>I can locate the United Kingdom on a world map.</li> <li>I can locate the four countries of the UK on a map.</li> <li>I know where the capital cities of the UK are on a map.</li> <li>I can explore my local area, identifying basic human and physical features.</li> <li>I can explore a map of my local area and identify basic features, such as roads and rivers.</li> </ul>
1		Around the World	<ul> <li>I know that France is a country in Europe.</li> <li>I know that China is a country in Asia.</li> <li>I know that Australia is the name of both a country and a continent.</li> <li>I know that Kenya is a country in Africa.</li> <li>I know that the USA is a country in North America.</li> <li>I know that Brazil is a country in South America.</li> <li>I know that there are no countries in Antarctica.</li> </ul>		<ul> <li>I can identify and describe some key human and physical features of countries in each of the continents.</li> <li>I can use words such as city, beach, mountain and lake to describe features of aplace.</li> <li>I know that some countries are hot countries and some countries are cold countries.</li> </ul>	<ul> <li>I can identify the UK and France on a map of Europe.</li> <li>I know that the lines within a map denote country borders.</li> <li>I can locate the seven continents on a world map.</li> </ul>
1		The Four Seasons			<ul> <li>I know what seasons are and how they relate to the months of the year.</li> <li>I can describe the features of each of the seasons using appropriate vocabulary to describe weather patterns.</li> <li>I can compare the four seasons.</li> </ul>	

2	At the Farm			<ul> <li>I know the difference between arable, dairy and livestock farming.</li> <li>I know how the different seasons affect life on a farm and can explain what happens on a farm in the different seasons.</li> <li>I can describe how living on a farm is different from living in a town using vocabulary such as buildings, fields, shops and roads.</li> </ul>	<ul> <li>I can use an aerial photo to identify features, such as buildings, fields and roads.</li> <li>I can use a map with a simple key to identify features of a farm, such as different buildings and fields.</li> <li>I know what the four points of a compass are.</li> <li>I can use the four compass points to navigate around a map, for example by identifying what is north of the hay barn or east of the chickenshed.</li> </ul>
2	Let's go on Safari	I know that Nairobi is the capital city of Kenya.	<ul> <li>I can describe how the climate is different in Kenya to the UK.</li> <li>I can compare and contrast the landscapes and settlements of Kenya and the UK.</li> </ul>	<ul> <li>I know that countries near the equator are hot countries and countries near the poles are cold countries.</li> <li>I know that Kenya is near the equator so it is a hot country.</li> <li>I can describe the physical features of Kenya, using vocabulary such as beach, volcano, mountains, savannah and valley.</li> <li>I know that there are lots of different groups of people in Kenya and that some live in traditional tribes and some live in modern cities.</li> <li>I can describe some of the cultural features of Kenya.</li> </ul>	<ul> <li>I can describe which oceans surround the continent of Africa.</li> <li>I can navigate around a map using a grid and compass directions.</li> </ul>
2	My World and Me		<ul> <li>I can compare the climate of the UK and Ecuador.</li> <li>I can compare and contrast the physical features of the UK and Ecuador.</li> <li>I can compare and contrast the capital cities of Ecuador and the UK, considering physical and human features.</li> </ul>	<ul> <li>I can describe the physical and human features of Ecuador.</li> <li>I can identify animals that live in hot and cold countries.</li> </ul>	<ul> <li>I can locate the five oceans on a map.</li> <li>I can identify the equator and the poles on a world map.</li> <li>I can use aerial photos to describe a variety of landscapes and locations around the world.</li> <li>I can create a map of my route to school using a key.</li> </ul>

3	In the Desert	I can locate the country and continent of deserts and desert cities.		<ul> <li>I can name and locate the major deserts of the world.</li> <li>I can use line graphs and charts to explore and compare climate data for deserts around the world.</li> <li>I can explain how erosion and other processes create different desert formations.</li> <li>I can describe some of the ways in which humans use deserts, such as mining, solar farms, military testing and recreation.</li> <li>I can describe some of the ways in which people use desert land to live.</li> <li>I can use independent research to find out about the human geography of a desert city.</li> <li>I can describe and discuss the causes and consequences of desertification.</li> </ul>	I can use a map with a key to identify deserts on a world map.
4	Our European Neighbours	I can name different countries in Europe.     I can name the seas and oceans surrounding Europe.	<ul> <li>I can compare the human and physical geography of London and Paris.</li> <li>I can ask and answer questions to help me compare and contrast London and Paris.</li> </ul>	<ul> <li>I can identify European countries based on human features, such as language, flag and currency.</li> <li>I can identify the capital cities of Europe.</li> <li>I can compare two European capital cities according to their human and physical features.</li> <li>I can use independent research to explore the human and physical features of a particular European country.</li> </ul>	<ul> <li>I can locate the countries of Europe, including Russia, on a map of Europe.</li> <li>I can locate the capital cities of Europe on a map.</li> </ul>
4	Settlements	<ul> <li>I can identify modern settlements that have developed from an early settlement.</li> <li>I can explain how settlements have developed over time.</li> </ul>	<ul> <li>I can identify and discuss the features of different settlements.</li> <li>I can use my local knowledge when exploring maps.</li> </ul>	<ul> <li>I can suggest land features early settlers would need to consider when choosing a settlement location.</li> <li>I can design a settlement incorporating necessary human and physical features.</li> </ul>	<ul> <li>I can identify map symbols and abbreviations on an Ordnance Survey map.</li> <li>I can use online mapping software and Ordnance Survey maps to identify different features.</li> <li>I can use online mapping software and Ordnance Survey maps to describe the areas between settlements.</li> <li>I can create a plan of a fictional settlement.</li> </ul>

4	Earning a Living	I know that the UK's industries are dependent on geographical areas.	<ul> <li>I understand the concept of trade links.</li> <li>I understand the concept of an economy.</li> <li>I can identify a variety of jobs that belong to different sectors.</li> <li>I know what some of the UK's top industries are.</li> <li>I can describe how climate and landscape help determine a country's industries.</li> <li>I can explain how unemployment affects people in the UK and around the world.</li> <li>I can explain how child labour around the world affects the economy.</li> </ul>	<ul> <li>I can use a map of the UK to identify where different industries are more prevalent.</li> <li>I can annotate a world map to show different industries in different countries.</li> </ul>
5	The United Kingdom	<ul> <li>I can describe key geographical features of the UK and its countries.</li> <li>I know that the UK can be split into regions and that each region contains several counties.</li> <li>I can identify and name the counties of the UK.</li> </ul>	<ul> <li>I can explore the human and physical features of a particular town or city in the UK.</li> <li>I know the difference between a hill and a mountain.</li> <li>I can describe how different mountains are formed.</li> <li>I can name and locate mountain ranges of the UK.</li> <li>I know the difference between a sea and an ocean.</li> <li>I can identify, locate and describe different coastal areas of the UK, using vocabulary such as erosion, coastal stacks and cliffs.</li> <li>I can name and locate the major rivers of the UK.</li> <li>I know that rivers start their journey at the source and end their journey at the mouth.</li> </ul>	<ul> <li>I can place the four countries and capital cities of the UK on a map, along with other places, such as the Isle of Wight and Shetland Islands.</li> <li>I can use given clues to locate the counties of England on a map.</li> <li>I can use a map to answer true or false questions about the location of a county.</li> <li>I can locate the major towns and cities of the UK on a map.</li> </ul>

5	Investigating Rivers	cycle using ap as precipitation evaporation at evaporation to rivers.  I can describe for transportation to rivers.  I can describe for transportation energy, farming and evaporation and environment.  I can generate about a particle	the processes of erosion, in and deposition in relation why rivers are useful, such as ation, wildlife habitats, ing and leisure. the causes of river lits effect on the	I can use a world map to identify major rivers around the world.

5		America. • I can use my ur of Cancer and	nderstanding of the Tropics Capricorn, and the equator, t the climate in South : be like.	<ul> <li>I can use a variety of geographical sources, including maps, to compare an area of the UK with an area of South America.</li> <li>I can compare and contrast the human and physical features of Brazil and the UK.</li> </ul>	<ul> <li>I can identify and describe the different climate zones of South America.</li> <li>I know that the Andes are the major mountain range of South America.</li> <li>I can use plate tectonics to describe how mountains are formed.</li> <li>I know what a volcano is and how they are formed.</li> <li>I know the differences between the three types of volcanos.</li> <li>I know how humans use the Andes for things like natural resources, hydroelectric dams and tourism.</li> <li>I can compare and contrast aspects of the human geography of South America, such as population, life expectancy, language, religions and currency.</li> <li>I know that the main industries of South America are agriculture and timber.</li> <li>I can name some key industries in different South American countries.</li> <li>I can use independent research to find out key details of the human and physical geography of a particular South American country.</li> </ul>	<ul> <li>I can locate the countries of South America on a map.</li> <li>I can use political maps and climate maps to identify the climate zones of South America.</li> <li>I can use a topographical map to locate the mountain ranges of South America.</li> <li>I can use a map of plate tectonics to identify the location of the Andes.</li> <li>I can create a colour key on a map of South America to denote key industries.</li> </ul>
---	--	---	--	--	---	---

6	Extreme Earth	I know where some places of extreme temperature are located.	I know that the first layer of the Earth's atmosphere is called the troposphere and that it is here that weather occurs. I can use data to create a graph showing the hottest and coldest inhabited places on Earth, before comparing them. I can explain what a drought is and some of the causes and effects. I can explain why some areas get more rain than others in relation to the water cycle. I can describe some extreme weather phenomena around the world, including tornados, tropical storms, hail storms and blizzards. I can describe the effects of extreme weather phenomena on the environment and people affected. I can use plate tectonics to describe what earthquakes are and why they happen. I know what the Richter scale is. I can describe the effects of earthquakes on the environment and people affected.	
			on the environment and people affected. I know that tsunamis occur when there are earthquakes on the ocean floor. I can describe what happens when a volcano erupts.	

6	Our Local Area	<ul> <li>I know that there are lots of different types of settlements, that they all have different purposes and that these purposes can change over time.</li> <li>I know that settlements can be split into different zones, including commercial, residential, industrial, educational, forests, parks and commons.</li> </ul>		<ul> <li>I know the difference between highorder and low-order services in a settlement.</li> <li>I know which products are exported from the UK, their value, their share of UK exports and the main importer countries.</li> <li>I can name many of the natural resources that are found in the UK.</li> <li>I can identify UK commodities that are made or produced in my local area.</li> <li>I can describe land use around my school, explaining how I feel about different areas and what I would change.</li> <li>I can compare local climate data with climate data for other parts of the UK.</li> <li>I know how different winds can affect the climate of different parts of the UK.</li> </ul>	<ul> <li>I can use fieldwork to observe wheresome of the UK's natural resources can be found.</li> <li>I can use fieldwork to identify different examples of land use in my local area.</li> <li>I can use fieldwork to take photos and make notes about my local area, then use this information to make a corresponding map or model.</li> <li>I can use four-figure and six-figure grid references to locate majorrivers in the UK and find the river most local to me.</li> <li>I can use fieldwork to gather information about the vegetation and wildlife of a local river.</li> <li>I can use fieldwork to gather weather data about my local area.</li> <li>I can use fieldwork to gather information about rock type, vegetation and wildlife on a local hill or mountain.</li> <li>I can use a topographical map to identify the major mountain ranges of the UK.</li> </ul>
6	North America	<ul> <li>I can identify the countries of North America.</li> <li>I can match North American capital cities with their correct country.</li> </ul>	I can compare my local area with an area in North America by generating and answering questions about the human and physical geography of both places.	<ul> <li>I can compare the climates of different parts of North America using graphs.</li> <li>I can match a description of a climate to a corresponding bar graph.</li> <li>I can describe some of the main geographical features of North America, such as the Grand Canyon, Niagara Falls and the Hubbard Glacier, and how they were formed.</li> <li>I can compare the features of North American capital cities, and order cities by population and area.</li> <li>I can use independent research to find out about the human and physical geography of a particular North American country.</li> </ul>	<ul> <li>I can use given information about the location of North American countries to label a map of North America.</li> <li>I can use a time zone map to state what the time would be in different places in North America compared to the UK, and vice versa.</li> </ul>
